AQUARIUM RO System

Clean, pure water is a priority for all fish.

FS301-DI

Aquarium RO/DI system

No equipment is more effective in helping create ideal water conditions as Reverse Osmosis (RO) units. These units filter out up to 99% of chemicals found in tap water by forcing tap water through a semi-permeable membrane that removes 90-99% of tap water impurities. The result is water that is free of minerals and other contaminants.

© PUREPRO USA CORP., ILLINOIS, U.S.A.

Small in size,
but big in capacity.

AQUARIUM RO System

FS-8000

Aquarium Direct Flow RO/DI system

No equipment is more effective in helping create ideal water conditions as Reverse Osmosis (RO) units. These units filter out up to 99% of chemicals found in tap water by forcing tap water through a semi-permeable membrane that removes 90-99% of tap water impurities. The result is water that is free of minerals and other contaminants.
